Programme and subject

Current unit or teaching context

Learning goal

What should learners understand or be able to do by the end?

Inquiry or knowledge question

MYP: connect to unit inquiry. DP: use a relevant knowledge question when appropriate.

ATL skill and observable action

Choose a specific skill; describe how you will model it and what learners will do.

Preparation and materials

What needs to be ready? Use approved resources and general, non-identifying examples.

Support and challenge

Plan an access scaffold and an extension. Keep individual support records elsewhere.
